

Elmira Greening Initiative

Monday September 25, 7 pm Trinity United Church, Elmira

THIS is an invitation to share your ideas about making Elmira a greener community! (We know you have them.)

TWEEC (the volunteer Township of Woolwich Environmental Enhancement Committee) is hosting a meeting to envision a long-range greening plan for Elmira on **Monday September 25, 7:00 p.m., at Trinity United Church**, 21 Arthur St. North in Elmira. Please come and join the conversation about using trees and green infrastructure to make our community a healthier, more sustainable place to live and work.

Katharina Richter and Brett Woodman, experts in urban forestry from Natural Resource Solutions Inc., will facilitate. Thanks to a grant from the Region of Waterloo Community Environment Fund, TWEEC has hired them to develop a 20-year greening plan for Elmira. They want to hear from the community as they get started.

The plan, to be completed in spring 2018, will provide a flexible and forward-thinking roadmap to guide us as funding becomes available—to TWEEC, the Township, other community groups. The plan will address the opportunities and challenges of making a greener Elmira.

You're welcome to contact TWEEC chair Susan Bryant, at shbryant@uwaterloo.ca, or Ann Roberts, aroberts@woolwich.ca, for more information.

TWEEC, a Committee of Woolwich Township Council
